

Twista Sista

.com.au

Wrap the hairband around your head with the wire edge at the back rather than over your ears.

1

Hold ends out in front

2

Cross the ends over

3

Twist ends to secure - that's it!

Tuck

Tuck the ends under for a traditional hairband look. There's no right or wrong way - whatever works on the day!

Scroll

We love the rosette look - just twirl and wrap the ends around each other. Squeeze them in or flatten them down

Pinch

We find that by pinching the padded wire at the back, the hairband gives you a little hug and whispers... 'I've got you Sista, let's do this!'
